

An ISO 9001- 2015
Certified Company

Product Catalogue

ABOUT US

Sumax Crop Science was established in the year 2020 at Kukatpally HYDERABAD TS and Companys working Headquarterd in MAHARASHTRA CENTRAL GROWTH CENTER MIDC AKOLA SUMAX group always offers a unique&cost effective product started to Farmers for better Yield and sustainable production in agriculture.

We Manufacture Various types of high quality plant nutrition products for all crops like a Amino acids,EDTA Chelated, Sprey Adjuvants, micronutrients,bio-stimulanants, plant growth regulator,Bio-pesticide,Bio-fertilizers, Imported Water soluble Fertilizers,Soil conditioners and many more segment innovative research base Products. and we are largest B2B supplier all above products.

VISION

Empowering to Farmars everywhere,with our varsitile range of agriculture Next Prectices SUMAX aims to be a globel leaders in Specialized & cost effective agricultural input with Chemical free farming for healthy soil and residue free foods supply chain in next generation citizines.

MISSION

Our Mission is produce&Provide high Quality Product to Farmer Grow the SUMAX FAMILY as a highly skilled trusted and motivated team having clear focus on the future and a singular commitment to excellence Our passion is Organic Agriculture Build on our stellar legacy as a market leader and expand our unique range of quality products.

RESEARCH & DEVELOPMENT

SUMAX CROP SCIENCE is a technology oriented company having its own R&D system ours team member are at the forefront of innovation in the agriculture sector.their skills and commitment distinctively position our company to deliver on the needs of farmers globally. And Our application research team is vigorously involved in Field studies to assess and expand product efficacies the field team is focused on generating data on several aspects of crops for multiple seasons and locations to ensure consistency in results.

COMMITMENT

Every business depend on your Commitment through Trust We are committed to always provide Quality product for Farmer our tagline is Quality is our Identity.we will not broken that Our sales teams Maintaining strong relationship with the farmers and Business Partner Excedding customer expectations in quality responsiveness & delivery its our primary goal.

AN ISO 9001:2015 CERTIFIED COMPANY
Ours is an ISO9001:2015 Certified organization in which each procedure and work instruction will be documented and thus becomes the springboard for continuous Improvement .we are happy to introduce ourselves as ISO certified company helps to increase Employee morale ,Customer Satisfaction Better products Quality &Services, by implementing SOP in management system. From managing Directors Desk

Dear Business Partner,

Our Agriculture Industry depend on Farmers And Farmer Depend on Yield and of Yield Depend on Soil health. Soil health is of prime importance for a healthy &Quality production of food .while preserving the soil health, it needs to be kept in mind that harmful chemicals can damage the soil health and it might take year to get the health of the soil back on track.we are always committed to farmers and keeping the soil alive.

Our Vision & Mission is Empowering Farmers,Enriching lives and cultivating a greener tomorrow through innovative and sustainable agriculture solutions.and provide high quality ,eco-friendly products and expert guidance to help farmers maximize their yields protect their crops and thrive in a rapidly changing environment. We strive to build lasting partnership with our customers partners and the community while fostering a culture of innovation ,Integrity,and excellence.

PRODUCT INFORMATION

MIXALL COMBO KIT 52KG

Mixall combi is unique formula soil application dose for all crops included in this kit following element grades

1) BORAX	02 kg
2) PLANT GR	10 kg
3) MgSo ₄ CRY	13 kg
4) FeSo ₄	5 kg
5) Agrogold	7 kg
6) Max Nutrient	10 kg
7) ZnSo ₄	5 kg
TOTAL	52 kg

MIXALL POWER COMBO 27KG

MAX NUTRIENTS	10 kg
MgSo ₄	10 kg
Plant gold	05 kg
Borax	02 kg
TOTAL	27 KG

BIOMAX

- is one of best crop Protector they protect crop against Thrips ,Mites,leaf miners, jassid aphids and all sucking pests
- product from herbal extract anti feedent and repellent
- phyto tonic effect on cotton chilli okra thrips
- always use morning and evening

Dosage : Biomax 2ml per ltr

MAXLINE

MAXLINE is one of the best Imported Organic fungicide which products Protects crops from many fungal diseases like a wilting Downy mildue yellow mosaic anthracnose early blight late blight yellow mosaic and control many more fungal Diseases.

Dose : 1.5-2 ml per ltr

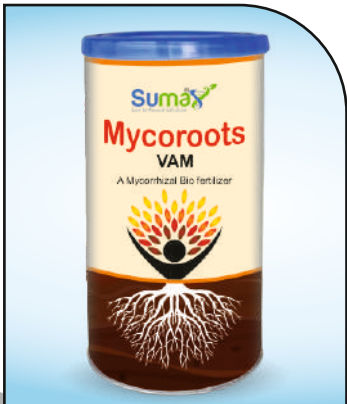

NEXON

Nexon is systemic spectrum antifungal product when sprayed on plants is retarded fungal spore germination as well as mycelium multiplication it is highly effective against powdery mildew, downy mildew, blast blight, anthracnose, gummosis, dumping off, root rot early late blight is always useful for killing all harmful fungus.

MYCORROOTS

MYCORROOTS VAM is Vesicular Arbuscular mycorrhiza is a beneficial symbiotic fungus that attaches to plant roots extending their reach to absorb water phosphorus and micronutrients acting as a natural bio-fertilizer it improves soil structure enhances drought resistance and boosts plant health by accelerating nutrient uptake mycorrhizal bio-fertilizer makes root colonization network around tree and protects plants against drought salinity and soil-borne disease.

MAX-SIL OSA 0.2

Max-sil OSA it is orthosilicic acid designed to enhance plant health nutrient uptake and yield. It acts as a beneficial element fertilizer to improve crop resistance against abiotic stresses e.g. drought, salinity and biotic pressures, strengthening cell walls to boost quality and shelf life, and increased chlorophyll.

POWER POINT

Powerpoint is a unique liquid biostimulant it is primarily used for fruit crops it boosts productivity by stimulating cell division and increasing nutrient uptake and developed for berry elongation in grapes improve fruit quality and enhance crop yields. And Promotes uniform growth and larger berry size. It is used in chilli, papaya and bottle gourd.
Doses 1ml per ltr

★ TOP
PRODUKT

BACTOMAX KIT

BACTOMAX is developed for Ginger & Turmeric. Special reach with all beneficial effective live micro-organisms eg. azotobacter, lactobacilli, rhizobium, psb, kmb, cellulomonas, sudomonas, tryko, bacillus, nitrobacter, photobacteria, thiobacillus, nitromonas and other 66 types bacteria included in this pack.

★ TOP
PRODUKT

WINNER

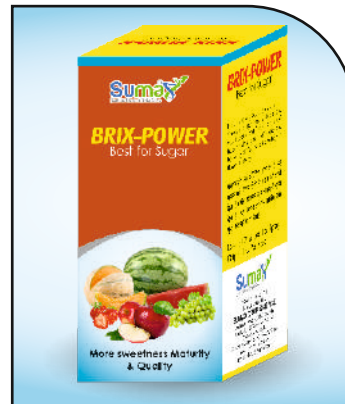

Winner is rich with specially seaweed *ascophyllum nodosum* 98%. Seaweed extract is a powerful, organic biostimulant derived from marine algae offering significant benefits for plants and soil. It accelerates growth, enhances nutrients uptake and improves stress tolerance against drought and salinity. It contains amino acids, vitamins, and plant hormones that boost cell division, root development, and overall plant vigor and flowering.

Doses : 2.5ml per ltr

★ TOP
PRODUKT

BRIX-POWER

Brix Power is rich with a high performance fortified organic potash derived from Rhodophytes. It enhances crop growth, improving fruiting size, shape, color, shining, quality, sugar, weight. This product is suitable for all crops, fruit and vegetables. Low dose and high impact.

★ TOP
PRODUKT

BRIXPOWER DF

BRIXPOWER DF is designed for only Drip irrigation for size, shape, color, shining, quality, sugar, weight in all types of melon, fruits, apple, pomegranates, & sugarcane. It helps to improve keeping quality in grapes. Its use always harvests time and after pollination for seeds, weight, and quality and fruits keeping quality.

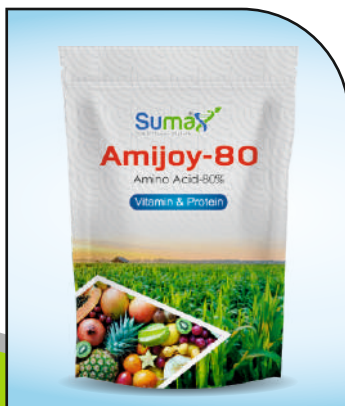

POWERPLUS

POWERPLUS is rich with fulvic acid 85%with Vitamin &protein it is enhances nutrient uptake improves crop yield and quality and increases abiotic stress resistance it used mainly infoliar sprays or liquid fertilizers it enhances photosynthesis strengthens root systems and improves microbial activity. And fulvic acid converts soil nutrients and minerals into a readily available from for plants enhancing the efficiency of fertilizers.and increases root and shoot growth boosts chlorophyll production.

AMIJOY-80

IT Contains Amino Acid 85% + vitamin ABC + FOLICACID Amino acid was play main role in plant function and health they are involved in the biosynthesis of proteins ,enzymes,harmones,and other essential molecules required for proper plant growth and development additionally amino acids are essential for uptake and utilization of minerals and other nutrients,and some are involved inphotosynthesis while others help to transport nutrients around the plants amino acid also play role inregulating gene expression and cell signalling.

MAGIC POWER GEL

It Is unique Gel base Technology product it is root activator for accelerate root development and strengthens plant roots for healthier more robust growth.this product mainly used for improving overall plant nutrition and its promotes seeds germination and flowering and fruit setting and nutrient uptake from the soil and ensuring better quality fruit and crop yield.
Dosage : 1 gm per ltr sprey
Drip : 250gm per acer/netshed Seed Treatment-3gm Per 1 Kg

TOTAL NUTRI

It Includes multiple nutrient formula make a complete plant food like

N-Nitrogen	B-Boron
P-Phosphorous	Cu-Copper
K-Potassium	Mn-Manganese
CA-Calcium	Zn-Zink
Mg-Magnesium	Fe-iron
S-Sulphur	OC-Organic Carbon
M-Molybdenum	PR-Proteins

TARGET

Target is Ideal Research product suitable for effective management use for all types larava stages fruit boror preventive American bollworm caterpillar and lepidoptra, leafminor.
Dosage : 2ml per ltr

LARVENTO

Bio-Pesticide and plant growth stimulant liquid bio control against larvicide and unique biostimulants and immunity promotes growth and acts as a bio-insecticide. Protect from larva 20-25 days with unique formulation of sumax Trigger defense mechanism II Antifidant and repellent Environment safety.
Dosage : 2ml per ltr

VAXIN-PLUS

Vaxin plus is unique microbial base seed treatment its helps enhances germination percentages and early uniform seedling growth and germinate seeds and make all over plant tissues healthy its protect crop from fungus and soil born disease seed treatments can be applied as seed dressing coating or pelleting to enhance seed viability and protect against damage.

VERMIWASH LQ/DF

Vermiwash is a nutrient rich liquid organic bio-fertilizer collect by passing water through earthworm compost & micro-organism it is enhance plant growth yield and quality making it a sustainable alternative to chemicals fertilizers. VERMIWASH is beneficial microorganisms to the soil improving overall soil structure. Dilute with water
Dosage : 5ltr per acer

X-BOND

Is a liquid fermented organic manure used in agriculture to increase soil organic carbon and microbes. It's designed to improve soil structure and fertility and provides essential organic carbon, nitrogen, phosphorus, and potassium to plants, promoting strong roots and higher yield.

CHAMPION

Humic acid & Fulvic Acid 85% is an advanced root booster and improves soil structure. Humic and fulvic acids are organic biostimulants that improve soil health and increase nutrient uptake. Humic acid acts primarily as a soil conditioner (improving structure and water retention), while fulvic acid acts as a nutrient transporter, enhancing absorption directly into plant cells. Both boost microbial activity, crop yields, and stress.

FOCUS DF :

(Mix-Micronutrients)
FE 2.5% MN 1.0% ZN 3.0% CU 1.0% MO 0.1% B 0.5% It contains all important micronutrients in water-soluble form. All these micronutrients play an important role in physiological/biochemical processes of the plants. It helps easy & quick absorption by the crop. FOCUS DF is a high performance 100% water-soluble foliar spray liquid.

MAXOFIGHT

MAXOFIGHT : Is an activated potassium salt of long-chain phosphorus, which is 96–98% active, water-soluble, eco-friendly fungicide and nutrient. It provides protective and curative action, is highly effective against fungal diseases such as Oomycetes fungi (downy mildew, powdery mildew), Phytophthora, and bacteria and viruses in grapes and other crops. It enhances crop immunity, nutrient uptake, and photosynthesis while preventing fungicide resistance and also promotes growth and increases plant vigor.

★ TOP
PRODOT

MICROVITA

ASCOPHYLLUM NODOSUM
Is a Seaweed-based growth promoter derived from Ascophyllum nodosum it boosts crop yields enhances flowering and improves fruit setting by providing balanced nutrition amino acids and vitamins it improves nutrient uptake increases crop quality and quantity and improves plant strength and recover all abiotic stress and acts as a comprehensive tonic for overall plant development.

★ TOP
PRODOT

PHOSPOGREEN 95%

Phospogreen is a high-efficiency phosphorus fertilizers designed to support vigorous root development Its advanced formulation product rich with phosphoric source apple green colour imported Phosphoric acid 95%
Dosage : 1ltr per acer

★ TOP
PRODOT

SHAKTI SHALI

Shaktishali is Completely organic product useful for enhancing plant growth it helpful in uptake of micro nutrients. It Increase availability of potash ,phosphorus and amino acids which increase crop quality & weight it application through soil accelerate formation of plants growth hormone regulators like gibberlines, cytokinen IBA, IIA in roots zone organically which helps in plant growth through drip irrigation
Dosage : 1ltr for drip irrigation

★ TOP
PRODOT

VC CARE

1. VC CARE is unique formulation doing work against all types Virus like as Tobacco Mosaic virus, tomato yellow curl virus, Papaya leaf curl virus, chilli leaf curl virus
2. Pure herbal organic products
3. Prevents the spread of viral disease.
4. Develops immunity against virus infections
5. New leaf sprouts of virus
6. This product doing well work in preventive stage
7. Dose 2gm per ltr

MAX-BAHAR

Maxbahar is an protein hydrolysates 25% amino acid base plant growth promoter manufactured by Sumax Crop Science it promotes flowering reduces fruit dropping increases nutrients uptake and promotes photosynthesis boosts chlorophyll in plant production leading to greener healthier plants it is design for all crops that enhances flowering crop yield and quality.

Doses : 2ml per ltr drip 1ltr per acer its ECO-CERT Certified product

RAIN COAT

RAINCOAT is an excellent spreading sticking and penetrating agent wwith a blend of anionic and non-ionic surfactantas .it reduces the surface tention of spray water to easy spreading on leaf surface also help in improving the effectiveness of pesticides by sticking &penetrating the spray water into the leaves RAINCOAT is a unique spray adjuvants that has been designed to improves the performs of herbicides,insecticides,fungicides, Doses :0.5.ml per ltr of water.

OVERFLOW

Use for quick early emergence &uniform flower Influence physiological process of pants Leads to profuse flowering Triggers amino acids synthesis cycle and vigorous plant growth Use pre-dropping of flower and fruits. Dosage 1ml per ltr

MAX BEEZ

Maxbeez is a mixture of honey bees Supplement food it helps Attract Maximum honey bees in bloombing crops treated fields attract to honey more more bees and insect are visited there. Is a product formulated to attract honey bees and other Insect pollinators to flowering crop plants. application to flowering plants increase the frequency of pollinator visits to treated flowers. Enhanced floral attractiveness has a very significant and positive impact on the process in a pollination better quality harvest and improved yields.

★ TOP
PRODUKT

V-Grow

V-Grow is powerful rootbooster & plant nutrition for overall plant growth and development it is rich source of organic nutrients like humic fulvic which is specially during early growth, flowering and fruiting stages

★ TOP
PRODUKT

CBZ POWER

CBZ POWER a complete solution of cracking & dropping solution its help in cross pollination majourly in seeds production CBZ is Unique formulation of chelated calcium+Cheleted boron+Cheleted Zink with magnesium CBZ POWER is very effective in all stages of crop growth for abundant and early flowering. reduce to fruit setting and unique pollen supporter.

Doses : 2.5 gms per ltr

★ TOP
PRODUKT

BIOBIT

BIOBIT

antifeedent is Worlds number one bitter bioactive natural antifeedant products they refers to the ability of chemical compounds to inhibit feeding in insects or pests causing them to starve without necessarily killing them directly. Insects stay on the plant but refuse to feed resulting in death by starvation.

★ TOP
PRODUKT

ZINCAFER

It is a complete crop nutrition that plays its role properly during the plants growth period. In this product Zink is vital trace mineral essential for plant growth acting as acrucial component of enzymes proteins and hormones it directly regulates auxin synthesis for stem elongation chlorophyll production cell division.and CALCIUM is an essential nutrients that provides structural integrity to plant cell walls and membranes acting as a crucial bulding block for growth fruits disorder fruit cracking, sunburning, Spotting. and FERROUS mainly function of generating chlorophyll lack of iron causes yellowing in young leaves due to plant not being able to produce chlorophyll.
